

DIGITAL MOTION TOWER⁺

MEDIA PRODUCTION

Stand: March 2024

Digital · Campaign media

01 File Format

Ad length: 10 seconds
Data: **7 screens** (please see the graphic)
Video: .mp4, 25 fps (progressive), no audio track, bitrate **mind. 30 Mbit/s**
Still image: .jpg, colorprofile: sRGB, if required by the programme: 72 dpi.

02 Content

Design content must comply with the German guidelines on the protection of minors (FSK 0).
Motif content must be free of political and religious expressions of opinion.
We reserve the right to reject motifs that have no direct reference to the client or their products or do not comply with the specifications.
If the advertising material does not meet the specifications listed, minor adjustments may be made by Ströer Media Creation.

03 Distribution

Use different design variants in your booking very individually, for example:

- at different locations
- over different times of day, periods of time or days of the week
- for different target groups

04 Design Handling

Handling costs per design and media: **€ 300**
All prices are subject to VAT.

Delivery deadline: **10 working days before the start of the campaign**, including the desired design scheduling.

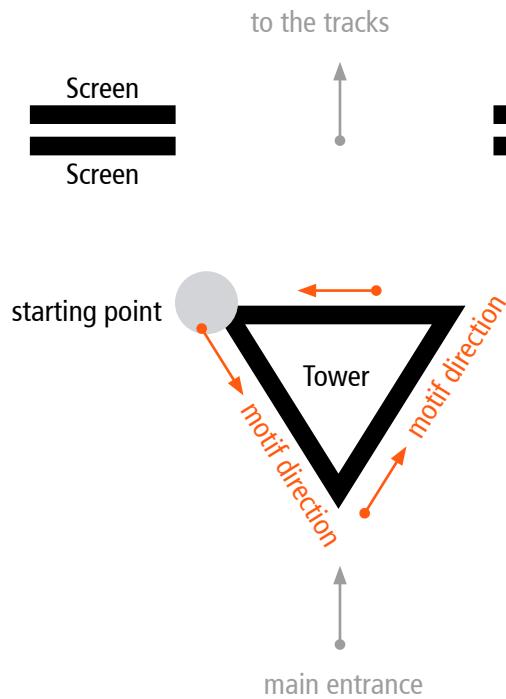

DIGITAL MOTION TOWER⁺

MEDIAPRODUCTION

Stand: March 2024

Motif playback and technical parameters: **Option 1**

Equal motif on all sides of the Digital Motion Tower and 2 portrait steles with screens on both sides

Creation: 1 motif with 384 × 1024 pixels **and**
1 motif with 1080 × 1920 pixels

Data delivery: 1 file with 1152 × 1024 pixels (total resolution) **and**
1 file with 1080 × 1920 pixels

Example of motif playback

DIGITAL MOTION TOWER⁺

MEDIAPRODUCTION

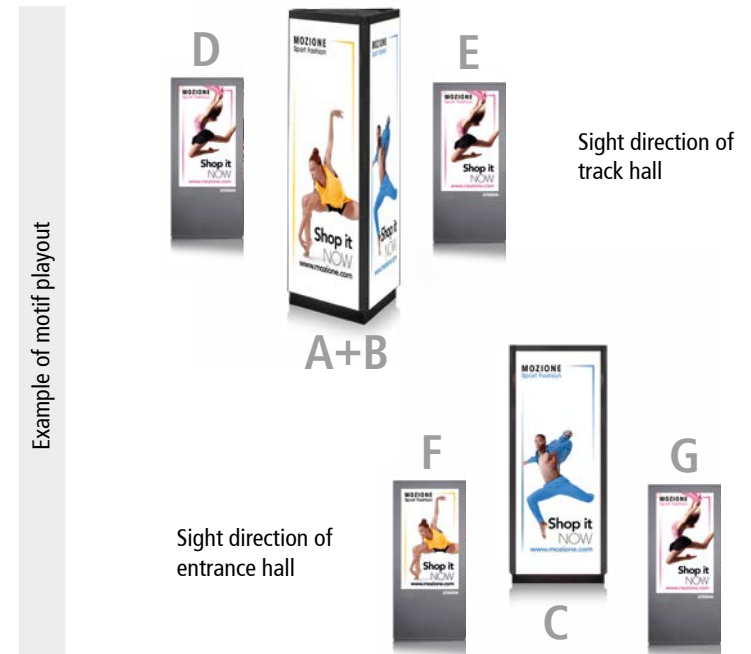

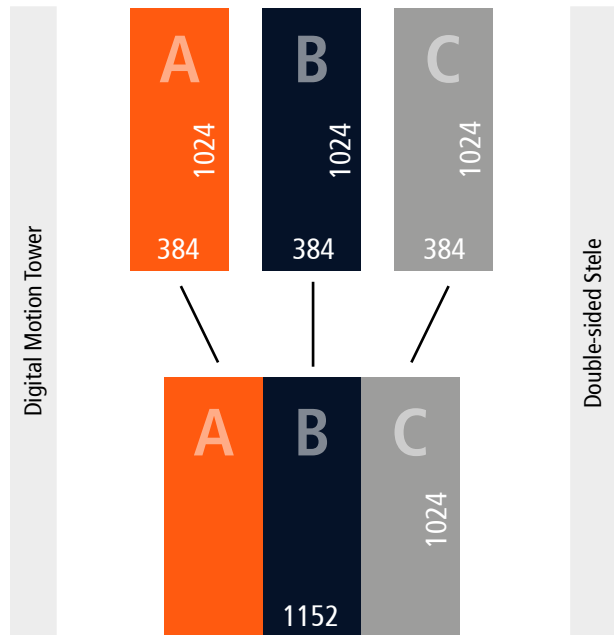

Stand: March 2024

Motif playback and technical parameters: Option 2

Choose on which screens and which motif should be played. A total of 7 screens are available to you. When submitting the data, please name the screen recognition in your file name (A-G).

Creation: 3 motifs A-C with 384 × 1024 pixels **and**
4 motifs D-G with 1080 × 1920 pixels

Data delivery: 1 file with motifs A-C with 1152 × 1024 pixels (total resolution) **and**
4 files D-G with 1080 × 1920 pixels

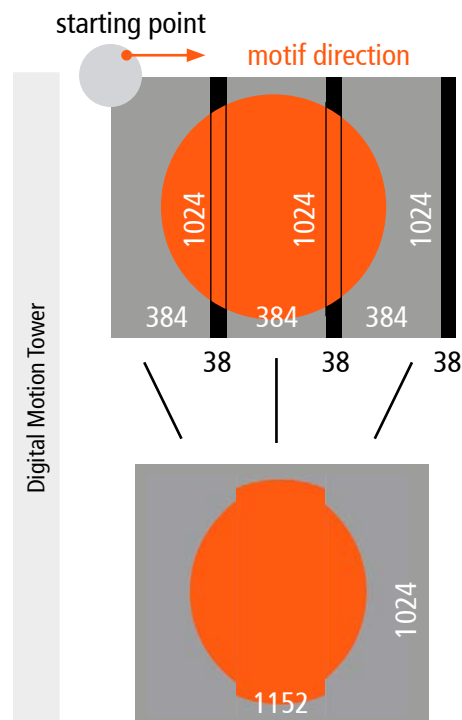

Motif playback and technical parameters: Option 3

A **coordinated recording of the motifs** makes it possible to create an animated spatial experience. The running and gaze direction of passers-by are essential for success of a spot creation. We are happy to advise you and assist you with our creations team.

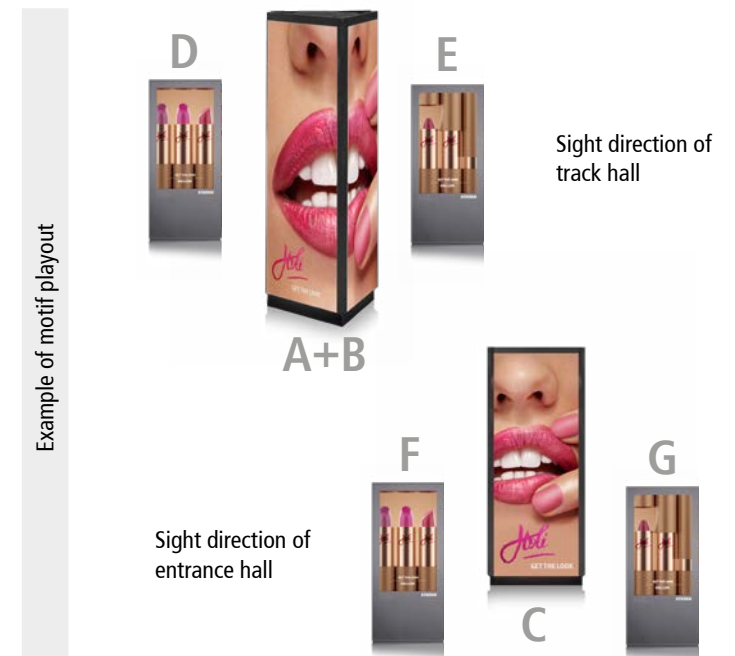

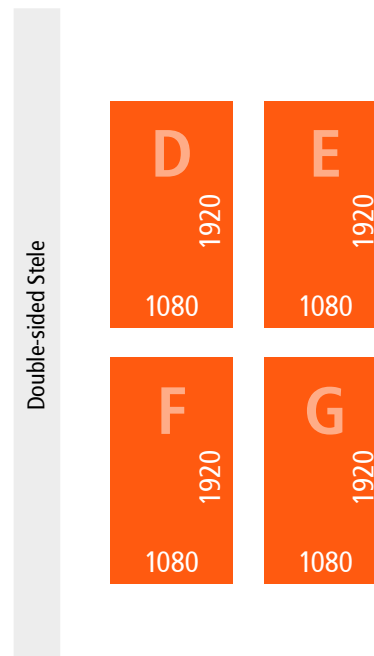

Creation: 1 motif with 1266 × 1024 pixels (circulating) **and**
4 motifs D-G with 1080 × 1920 pixels

Data delivery: 1 file with 1152 × 1024 pixels (total resolution) **and**
4 files D-G with 1080 × 1920 pixels

The intermediate bridges (38 pixels) of the image motif are not broadcast, nevertheless they are essential for a perfect overall visual impression and should be included in the design.

Note: Due to the construction of the advertising medium we recommend optical details; and text blocks not in the intermediate bridge area to place!

Animation:
Logo is emphasised by an effect
Lemonade bottle falls into the picture

Design possibilities with indoor advertising media

- Advertising media that are optimally tailored to the Digital Motion Tower exploit their full potential and reach more people.
- Keep it short and simple: make texts and images large and reduce to the core message.
- Make the text and logo visible over the entire duration of the spot and emphasise them with highlight effects.
- The animation of image elements makes your advertising material unforgettable.

A mandatory **minimum font height of 40 pixels (legal text exactly 7 pixels)** applies to **Digital Motion Tower**.

FULL SERVICE

STRÖER MEDIA CREATION

Update: March 2024

We offer you the entire range of premium advertising media design and production: The adaptation of your existing advertising media for our digital and analog media, professional realization and design of your own ideas, and our full range of services, from the idea to the final design.
